Short Body Support with Cups

BENEFITS OFFERED BY SUPPORT FREDERICK BODYSUITS FOR WOMEN

- Made with smart lycra with memory and top quality materials, that's why FREDERICK is the most prestigious company that gives firmness to your beauty.
 - All our bodysuits benefit women by strengthening their pelvic floor muscles and with them the bladder, uterus, ovaries and intestines are protected.
 - Our Support bodysuits help you keep your figure upright (right).
 - They prevent uterine prolapse.
 - They protect the spine.
 - They help close the ribs.
 - Provides support to your back.
 - Correct your posture.
 - Trim your waist.
 - Control your abdomen.
 - Reinforced external seams and crotch opening.
 - Reinforcement panels, internal clasp and external zipper for greater control.
 - Wide straps for superior support and control.
 - Improves posture in general due to its super-reinforced double cross on the back.
 - Instantly reduce waist, abdomen, hip and back measurements
-

- Its practical lower opening makes it easier for you to visit the bathroom and makes you feel much more comfortable
- You can use this girdle every day, after surgery or after having your baby
- High compression.
- Front closure and internal snaps that provide greater abdominal support.
- Double reinforcement in abdomen
- Reinforced external seams and open crotch
- Reinforcement panels in key areas
- Anatomical back support.
