The Vasseur Skin Clinic & Spa is not your typical day spa. In our luxurious ambiance, we focus on results and our passion for what we do comes together to give you a one-of-a-kind, unforgettable spa experience.

Ambiance. Our award-winning spa is situated in San Diego Historical Site No. 129, the Sherman Judson House, an 1887 Queen Ann Victorian home renovated in 2006 to restore its past grandeur.

Results. As a results-oriented spa, we use our own exclusive, top-of-the-line skincare to give you a dramatically enhanced complexion. Formulated by Melanie Vasseur, a cosmetic chemist, esthetician, nutritionist and leading skin care expert with over 35 years industry experience, Vasseur Skincare is freshly made, highly potent and all-natural formulated with the highest concentration of active ingredients and absolutely no synthetics, toxins, parabens or chemical preservatives. We also offer the most cutting-edge anti-aging treatments on the market ranging from the Age Reversal Laser to the Sciton Micro Laser peel.

Passion. At Vasseur, our mission is to make you look and feel like the best, most radiant version of yourself. To do this, we tailor each and every service to your needs and preferences to ensure it's as special and unique as you. We now offer aromatherapy integration into our treatments, which is designed to enhance your Vasseur experience.
